TRANSNATURA PROJECT*

A two-day trip with one overnight stay in a natural environment. The project offers an intensive learning experience focused on sustainability, healthy living and the relationship between people and nature.

Planning: Departure date confirmed at the beginning of the course. Details regarding timetables, price, itinerary and luggage will be provided at least 10 days before the departure. Attendance is mandatory. In case someone is unable to attend it, he/she will have to prove the reason for missing it and perform a compensatory work previously agreed with the teaching team. The activities carried out during the trip will be part of the continuous evaluation of the different subjects.

Transnatura activities contribute to the continuous assessment of the subjects involved: Didactics of Experimental Sciences; Learning and Development II; Visual Music Education and Learning; and Physical Education and its Didactics I.
