COURSE SELECTION PROCESS

Exchange Programmes

PLEASE, CHECK **ANNEX I** WITH INFORMATION ON THE LANGUAGE REQUIREMENTS FOR EACH UAB SCHOOL AND FACULTY

UAB
Universitat Autònoma
de Barcelona

COURSE SELECTION

This application allows you to select courses offered by all UAB faculties and schools within the same academic period. Your selection may include **courses offered by your own faculty or school** (provided it is listed below) as well as **courses from other faculties and schools** across the university. For further information, please consult your host faculty. In any case, courses taken outside your home faculty must **not exceed 50%** of the total selected credits.

If you are a student in one of the following schools or faculties, you can select courses offered by your own faculty or school and courses from others**:**

- SCHOOL OF ENGINEERING
- FACULTY OF POLITICAL SCIENCE AND SOCIOLOGY
- FACULTY OF COMMUNICATION STUDIES
- FACULTY OF ECONOMICS AND BUSINESS STUDIES
- FACULTY OF ARTS AND HUMANITIES
- FACULTY OF PSYCHOLOGY
- FACULTY OF TRANSLATION AND INTERPRETING

If you are a student of the rest of the faculties, you can select only courses offered from other faculties and schools.

Before starting the course selection, make sure the following steps have been completed:

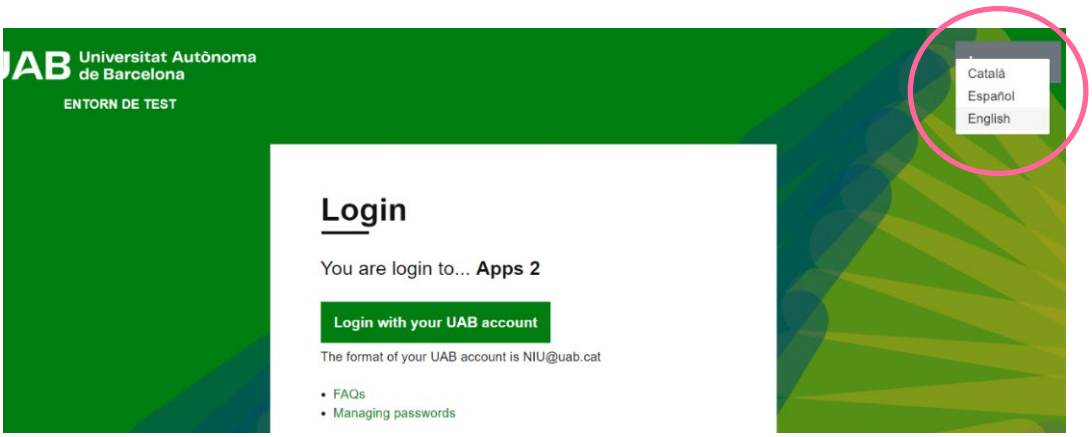

- You have completed your Application for Admission to UAB (http://sia.uab.cat)
- You have received your Admission Letter from UAB, confirming your acceptance at UAB.
- You have received an Email from the Assigned School or Faculty's Exchange Office – containing information about course selection.
- You have checked the **Annex I** with information regarding language requirements.

ACCESSING THE APPLICATION

1. Visit https://apps2.uab.cat/enrollment/, and log in using your student number (NIU) in the format NIU@uab.cat, along with the password you received when applying for admission to UAB. If you have forgotten your password, you can generate a new one on the UAB password management page.

2. It will ask for a phone number to receive an access code, which you will need to provide to complete your identification.

3. You can also select your preferred language.

WHEN YOU CAN CONNECT TO THE SYSTEM

Check your email from the Exchange Office at your school or faculty for information on the system connection periods and the required documentation that you will find detailed in Annex I (which may vary from one center to another) for each step you need to complete. Outside these deadlines, the system will only allow you to view your data and upload documents. Please be aware that the application schedule runs in UTC+2 schedule (UTC+1 in winter).

STEPS TO FOLLOW

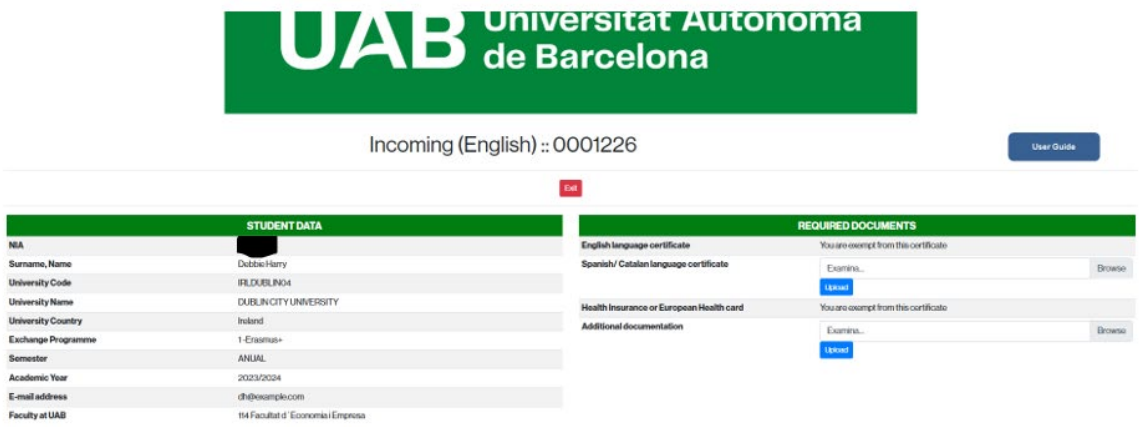

You must complete the following steps according to the periods indicated:

1. Upload the required documents
    a. Always: you'll have to upload a copy of your **Health insurance** or the **Health European Card**
    b. Depending on the courses that you want to follow, you will have to upload the **Required Language Certificates.**
    c. Depending on the school or faculty, you will need to upload other documents in "Additional documentation".
2. Select subjects specific to your school or faculty.
3. Print or download the generated document.

1. Upload of the required documents

Upload to the system the required documentation to enroll in courses within the indicated deadline, as shown on the following screen (required language certificates; remember to check Annex I and follow your school or faculty's instructions). The format must be PDF, and each document should not exceed 1MB.

Once your documents have been validated, you can proceed with the courses selection. From this moment on, there will be no possibility to upload any new documents or modify existing ones.

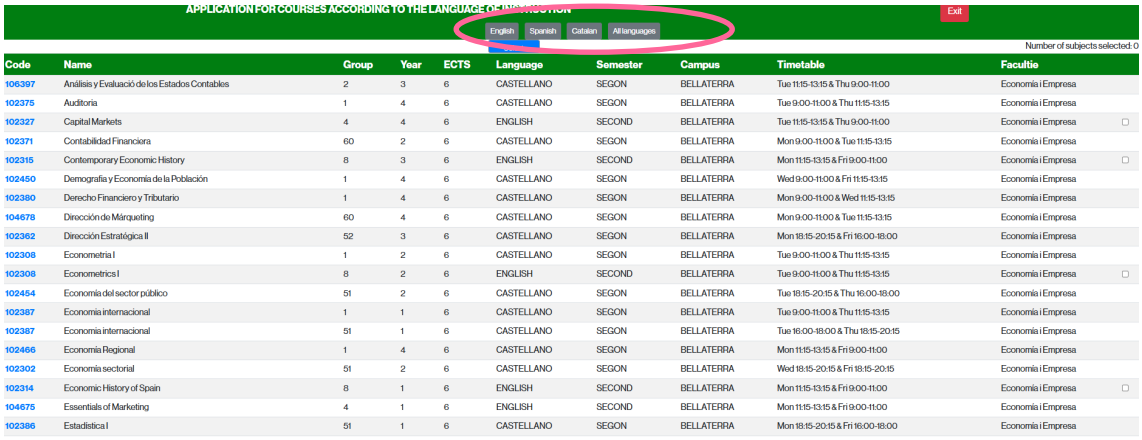

2. Selection of courses

Once you have uploaded the required documents and they have been validated by your school or faculty, the system will allow you to select your courses.

Keep in mind that you can only choose and enroll in courses that have available slots at the time you connect, regardless of the offerings published on the website.

Select the courses according to the language you are interested in, as not all courses are taught in all languages. Please be aware that your selection of courses can be denied if you do not have the required language level (check Annex I).

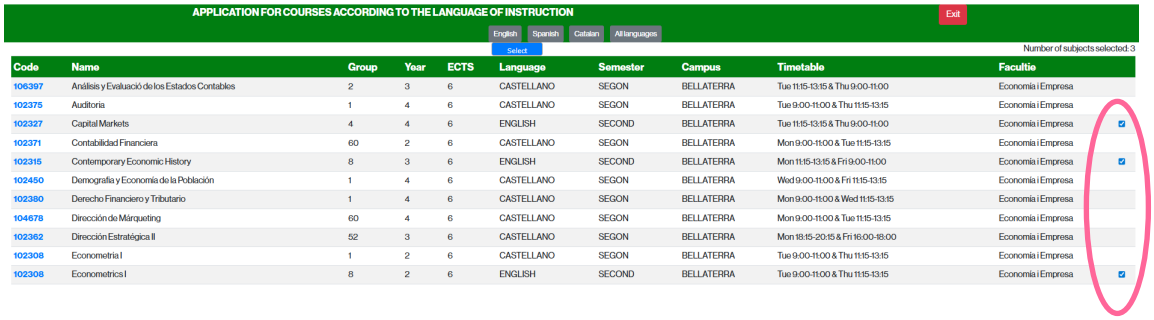

Also, keep in mind that there are subjects that you will not be able to follow without prior knowledge of the tòpic.

You can consult the program for each subject by selecting the subject code, unless your faculty or school has provided a different link.

Choose courses based on the language and schedule that interest you (in some cases, different options may be available) and check the corresponding box in the selection column.

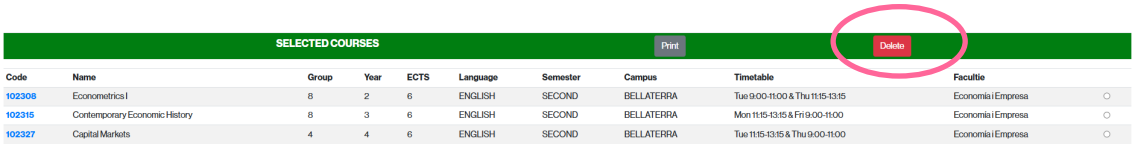

You cannot select courses with no vacant places (the selection box is not displayed).

Once you have selected all your courses, click the “Select” button.

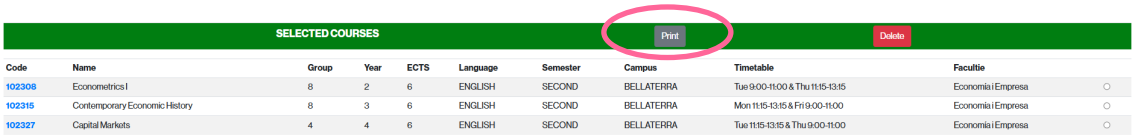

Your selection will be displayed in a table above, confirming your admission to the chosen courses. If error occurs, you can mark the subject and click “Delete”.

3. Print or download the generated document

Finally, click the “Print” button to obtain the document confirming your courses. Be sure to save it, as may be required during your stay.
